■ Optional Tour (Excursion)

We are planning to go hiking to Mt. Haguro through 2,446 stone steps. Mt. Haguro is 414 m high and a path to the top of the mountain is 1.7 km-long. The main approach is lined with a lot of cedar trees that have stood for 350-500 years (see a left photo). There is Dewa Sanzan Shrine as a center of Dewa Sanzan faith.

Why don't you try a facile and healthy mountain climbing after the workshop and experience Japanese "spiritual culture".

***We are looking forward to seeing you soon
in the 6th JTPL2019 at Tsuruoka,
Yamagata.***
